About this Report

The City of Arden Hills reports financial year-end results in the Comprehensive Annual Financial Report (CAFR). The Popular Annual Financial Report (PAFR) is an unaudited report that summarizes the most significant data from the 2015 CAFR, and is consistent with Generally Accepted Accounting Principles. The report reflects the net tax cost by service expenditure, developed by crediting related revenues against appropriate expenditures and allocating local taxes against the remaining balance.

For a complete review of the City's financial position for 2015, consult the 2015 CAFR available on the City's website at www.cityofardenhills.org, or from the Finance Department at 651.792.7816.

The City's General Fund is the largest fund and is also one of the most vital to the City's operation. The General Fund is the primary fund that accounts for everyday general expenditures like street and park maintenance, public safety, and administrative services; while at the same time, supplementing portions of the other funds. Like most funds, the General Fund relies on the inflow of cash, shown as

revenues and subsequently the outflow listed as expenditures. The primary revenue for the General Fund is property taxes. Intergovernmental revenues are items like state/county aids and grants. For year end 2015, the City's revenue total was \$4,662,568 which was a \$357,825 (8.3%) increase from the previous year. This is mainly due to license and permit fees generating more revenue than expected.

Long Term Debt

Arden Hills maintains an "AA+" rating from Standard & Poor's. This bond rating benefits the City by allowing the City to borrow at lower interest rates. The City issued General Obligation Tax Increment bonds in 1998, these bonds were fully repaid in 2015. These Tax Increment Financing (TIF) districts are an important economic development tool. Arden Hills' TIF districts are located along Round Lake Road, Cottage Villas and Presbyterian Homes.

In 2004, the City of Arden Hills refinanced its debt because of lower interest rates. To do this the City had to pay the previous bond in full, causing the spike in the chart below. The 2015 revenues were \$0 in interest, expenditures were \$284,900 for the final payment, and transfers in from TIF districts were \$284,900. The chart shows a timely repayment of debt by the City.
