

Arden Hills Natural Gas Pipeline Reconstruction Project

Project Overview

Xcel Energy is replacing approximately two miles of natural gas pipeline along Red Fox Rd., Snelling Ave., and County Rd. E. in Arden Hills, MN. Crews will be making updates to the distribution services attached to the pipeline along Lexington Ave. and County Rd. E.

Roads will remain open during construction. There will be intermittent, temporary lane closures throughout the project. Driveway access will remain open for local residents and businesses during construction.

The Arden Hills natural gas pipeline project will provide safe, reliable service to Xcel Energy customers within the area. This modernization project supports other infrastructure improvement efforts in the area.

Please keep your distance from any materials and equipment – only authorized personnel are permitted in our work areas. We want you and our crews to stay safe during construction!

What to Expect

Intermittent, temporary lane closures on Red Fox Rd., Snelling Ave., Lexington Ave. and County Rd. E.

Temporary parking restrictions along Red Fox Rd.

Large equipment, potential noise and vibration impacts

Vegetation management along the right-of-way in the project area

Construction materials and equipment located along the road

Anticipated Project Schedule

Late April 2018

- Construction equipment arrives
- Vegetation management begins

Early May 2018

- Construction begins
- Lane closures

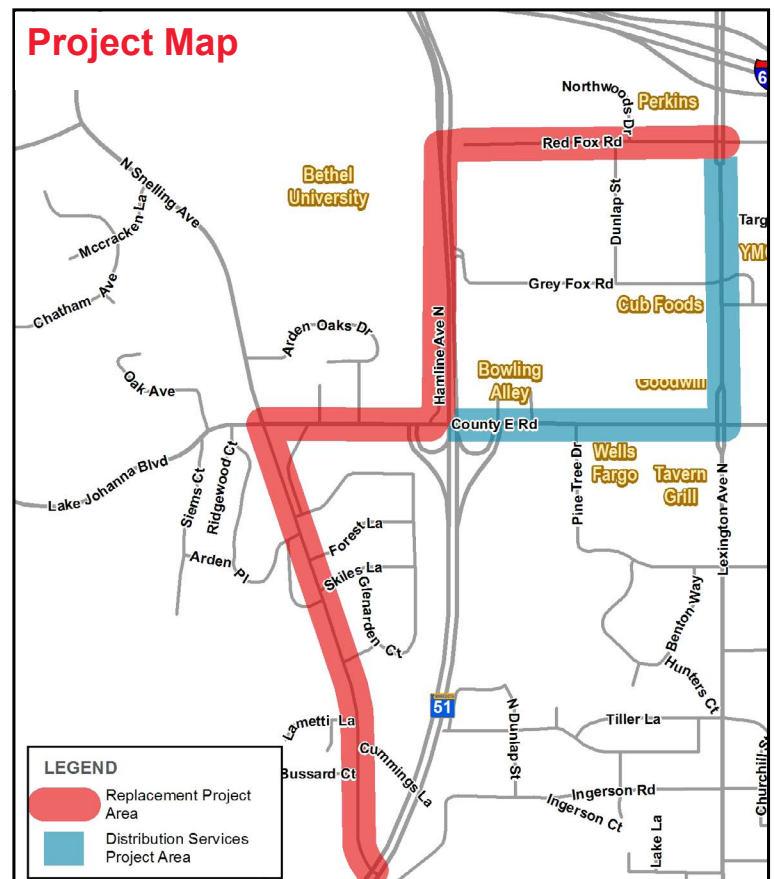

Late Fall 2018

- Pipeline in service

Fall 2018

- Restoration
