

Do You Have an Unsealed, Unused Well on Your Property?

Money is Available to Help Seal It!

Unsealed wells can cause contamination of the groundwater supply, from which we all drink.

Minnesota Department of Agriculture

Your well probably doesn't look like this. Homeowners can have an unsealed well on their property and not even know about it! Unsealed wells can be found buried in the yard or in a small building on the property, in a small room in the basement, or near a water pump.

Contact the Ramsey Conservation District if you are interested in cost share to seal your unsealed well on your property and live in one of the following cities in Ramsey County: Arden Hills, Gem Lake, Mounds View, New Brighton, North Oaks, North St. Paul, Shoreview, Vadnais Heights, White Bear Lake, and White Bear Township
